

FACT SHEET No. 63

ZOONO APPROVED BY BOEING AND AIRBUS

Zoono Limited has received confirmation that Zoono Z-71 Surface Sanitiser has been tested and approved for use within Aircraft environments, by both Boeing and Airbus.

Boeing D6-7127 Rev P - Incorporating PDD 6-8 (21 June 2012)

Interiors of Commercial transport Aircraft

Product: Antimicrobial Shield – Zoono Z-71 Formula (Ready To Use) Part Code: A333

11.3.1	Sandwich Corrosion	Conforms
11.3.2	Immersion Corrosion Test	Conforms
11.3.3.	Rubber Test	Conforms
11.3.4	Sealant Test	Conforms
11.3.5	Painted Surface Test	Conforms
11.3.6	Tedlar Surface Test	Conforms
11.3.7	Vinyl Surface Test	Conforms
11.3.8	Fabric and Carpet Test	Conforms
11.3.9	Leather and Naugahyde Test	Conforms
11.3.10	Flash Point Test	Infomational
11.3.11	Polycarbonate Crazing Test	Conforms

British Aerospace Airbus AIMS09-00-002 (Issue 3, July 2011)

Evaluation of Maintenance Materials - Toilet Fluids (Disinfectants)

Product: Antimicrobial Shield – Zoono Z-71 Formula (Ready To Use) Part Code: A333

5.3.1	Sandwich Corrosion Test	Conforms
5.3.2	Total Immersion Test	Conforms
5.3.4	Paint Softening Test	Conforms
5.3.6	Polycarbonate Crazing Test	Conforms
5.3.7	Elastomer Degradation Test	Conforms

Zoono is a water-based, food safe, environmentally friendly antimicrobial solution containing a quaternary ammonium compound that (once dry), bonds with the surface to provide long lasting protection against bacteria, fungi, mould, yeast and viruses.

Zoono has been proven in numerous, independent Laboratories globally as a highly effective, long lasting antibacterial solution. It is proven against a variety of pathogens including E. coli, Staph, MRSA, H1N1, MERS, Norovirus etc.

For further information, contact Zoono's Auckland office.
